

Marija joined the regular university programme as soon as she started her retirement

Marija, 75, retired person

Marija joined the regular university programme as soon as she started her retirement. Before that, it just wasn't possible. Today Marija is an avid reader, a regular visitor of musical concerts and all sorts of exhibitions, a volunteer on every occasion with a multitude of institutions, to name only a few, and above all, she learns from every person she meets. And she meets a lot of people.
