

Accessibility

This statement applies to countryreport-website run by the European Association for the Education of Adults. We want as many people as possible to be able to use this website.

For instance, you should be able to

- navigate most of the website using a keyboard
- zoom up to 300% without the text spilling of the screen
- listen to the content on the pages

Website is produced with particular attention to accessibility. However, we haven't conducted an impartial accessibility review, therefore we can't claim that the website is fully compliant with the WCAG 2.1. AA standard.

The country data can be accessed in multiple ways:

- using a drop down menu in the main navigation bar,
- using the search box on the front page and
- using the map picture. However, selecting countries in the map is not possible with a keyboard.

Pictures have no alternative texts, however, they are mostly decorative in nature.

If you have feedback or difficulty accessing some of the content on this site, contact us at: [eaea-info\(at\)eaea.org](mailto:eaea-info@eaea.org). You can find further contact details on [EAEA main website](#).
